

GASOLINE GENERATOR

TOKAI®

Model : **G13000CXi-E**

STOCK CODE : **880305058**

ENGINE:

Model	GB620
Engine Type	OHV, Air Cooling, 4 Stroke
Displacement	625 CC
Engine Oil Capacity	1.4 ml
Net Weight	131 kg
Dimension	790 x 700 x 680 mm

FEATURES:

Tokai Petrol Generator is used for standby usage in industrial, agricultural, and construction applications. It is economical and reliable. The Tokai Generator comes from small size to big size according to its various models, compact, durable generator with maximum output 10kW (certain models) output for efficient powering of home and work site. Maximum of 55L for (certain models) fuel tank for tough, reliable performance from its easy-start petrol engine in all conditions. The ergonomic design allows easy portability, while a user-friendly dashboard means easy, even in emergencies.

SPECIFICATION:

GENERATOR :

Starting System	Recoil / Electrical Starting
Alternator Material	100% Cu
Voltage	230V / 50Hz
Rated Output	1ph/3 kW 3ph/9 kW
Max. Output	1ph/3 kW 3ph/9 kW
THD	≤ 5
Running Time at 50% Loading	15.5 H
Fuel Tank Size	55 L
Noise	82 dB(A)
Insulation Grade	F
